

## **LEVERAGE to Attend ISC West on April 2<sup>nd</sup>**

LEVEARGE is attending International Security Conference and Exposition on April 2<sup>nd</sup> at Sands Expo, Las Vegas. Our own Ray Leblond, IP surveillance practice manager, will be speaking at one of the panels.

### **The Winning Prescription for a Collaborative City-Wide Public Safety Surveillance System – April 2<sup>nd</sup>**

Session #PB01: 7:30AM-8:30AM

Room: 302

**Location:** Sans Expo, Las Vegas

**Description:** City-Wide IP Surveillance Systems can be a force multiplier providing workflow improvements while improving citizen quality of life. Properly architected and deployed it will have virtually unlimited scalability, while garnering acceptance by citizens and business alike. Establishing the foundation requires a collaborative effort involving agency needs, business input, citizen expectations and technological considerations. This session delves into the attributes of both successful and unsuccessful City-Wide IP Surveillance Systems. In the process, participants develop a fundamental knowledge base for the successful deployment of a shared resource, City-Wide IP Surveillance System that will impact city government, business and citizens.

#### **Learning Objectives:**

1. Outline the benefits of a collaborative city-wide IP surveillance system for your City's agencies, local businesses and citizens.
2. Develop a process specific to your organization to define the operational and technical requirements for a city-wide IP surveillance system.
3. Identify the elements and steps required to design, deploy and sustain a city-wide IP surveillance system.

**About Ray Leblond:** System architect for city-wide IP Surveillance deployments in several Southern California cities (including Santa Monica, Redlands, Compton, South Gate, Lynwood, and Gardena, among others). Author of four patent-pending applications related to city-wide IP surveillance systems. Ray believes in empowering municipalities and organizations to improve citizens' quality of life and safety through innovative technological solutions. He is committed to continuous improvement by listening to clients and implementing capabilities that address the ever-changing needs of communities and organizations. LEVERAGE's innovative patent-pending technology and field-proven solutions address nuisance and criminal activity using surveillance audio and video, providing long-term suppression and prevention. Cutting edge video surveillance provides cost effective, proactive, multi-agency resource sharing, resulting in municipality-wide work flow improvement, while impacting suppression and prevention of nuisance and criminal activity.

**About ISC West:** ISC West is the largest physical security show in North America featuring over 1,000 exhibitors in one place in just 3 days. Its business critical education programs keep you informed on the most relevant products, technologies, and strategies in today's evolving security market. In fact, more breakthrough product will be unveiled than ever before. For more information please follow [this link](#).
